### Resume Tips

*Job fairs and info sessions are upon us. The Gorilla Gazette will help make your resume stand out.*

- Resumes should only be one page long. Use font size six if you have to, and attach a magnifying glass.
- Use **Comic Sans**—it shows that you're fun *and* a third grader.
- Use action words like "facilitated," "stabbed," "engineered," "stole."
- Don't be boring. Print your resume on pink construction paper.
- Sealed with a kiss isn't just for letters anymore. Smooch your resume for an added creative touch.
- Reach back if you must—everyone peaks at different times. Emphasize yours, even if it was in junior high.

## It's the Most Wonderful Time of the Year

*Class Marshal elections are happening RIGHT NOW, which has led to an onslaught of charming emails.*

Dear Close Friend,

Wow, long time since Expos, huh? Hope you had a good summer and a good junior and sophomore year. Also hope shopping week went well.

I am running for Class Marshal. That position basically requires building class cohesion. I think I've already proved that I'd be a great candidate for this job by the way I manage to accidentally catch your eye in a really uncomfortable way every time we're at an awkwardly far distance away from each other.

I know it seems like everyone and their cousin is running for Class Marshal, and so if you could vote for just me that will make winning a ton easier!

Just one more tiny favor—please make your Facebook status a statement of support for my campaign. Thanks in advance!

All Best Everything,  
Hope Less

### ER 18

*It seems that half of the college has enrolled in Ethical Reasoning 18: Classical Chinese Ethical and Political Theory. This definitely doesn't have anything to do with its Q guide average difficulty rating of 2.3. The comments speak for themselves.*

"I didn't even know I was enrolled in ER18! I just saw the A on my transcript over winter break."

"My family was really impressed by my command over... What was it again? Chinese philology?"

"They tell you to only take life changing courses at Harvard, and boy did this course change my life. I had tons of time to take up a part time job, do all my other course readings, and even find true love by perfecting my online dating profile."

**"It's from the government—we'll have to file an environmental-impact statement before we can evolve."**

Don't miss the first happy hour of the year, Started from the Yard, Now We're Here.

In the words of Drake, quad a fake friend, Mather's where your real friends at.

*Special thanks to:* Rosa Huang, for creative inspiration this week.
